MODERN PUBLIC SCHOOL

Dear Parent (s)

The outbreak of swine flu in the city has spread at an alarming rate and hence there is a need to take precautions and safeguard our children.

It is advised :

- (i) That students do not frequently visit public places as this is the easiest way to catch infection.
- (ii) That if your ward complains of sneezing, is running temperature or shows any other symptoms of swine flu please do not send him / her to school till he / she fully recovers.

(Principal)
